

*Binghamton Regional Center for Autism Spectrum Disorders
2019 Spring Conference Supplementary Handout*

*This handout was created by the BRCASD Conference Team to support attendee learning within this workshop. The presenter is in no way required to cover content in a similar fashion as shown below. Consider this worksheet a support to your learning rather than an exact step-by-step parallel to the presentation. We look forward to any feedback you have about the helpfulness of this supplemental handout.

WORKSHOP III

**Social Skills and Peer Relationship Development: An Evidence-Based Perspective on Intervention for Children and Adolescents with ASD
Summer Bottini, M. S., BCBA**

Ms. Bottini focuses on considering specific strengths in an individual's profile when planning social skills interventions and areas for growth. What are some of the strengths you might consider for yourself, your child, or someone you serve?

What are some of the evidence-based recommendations shared during this presentation that might help you, your child, or someone you serve develop a more effective set of social skills for the current social environment most relevant to you/your child/someone you serve?

What questions do you still have about choosing social skills? Where would you start if you were to work on this tomorrow? How will your starting point help you/your child/someone you serve at this stage in life?
